

Technical drawing of a bridge deck cross-section. The total width is 10600. The deck is divided into three main sections: a left side section of 800, a central section of 6500, and a right side section of 3300. The central section contains two vertical lines labeled 'OSA SO 121' and 'OSA MOSTU'. The deck has a 2.5% slope on both sides, indicated by arrows and the text '2.5%'. The drawing shows the profile of the bridge deck, including the top surface, the bottom structure, and the side walls.

Technical drawing of a chimney cross-section. The drawing shows a central vertical shaft with a diameter of 600 mm. The shaft is surrounded by a thick wall with a total thickness of 1160 mm. The wall is composed of two layers: an inner layer of 217 mm and an outer layer of 95 mm. The shaft is supported by a base with a width of 4200 mm. The base is divided into three sections: a central section of 3900 mm and two side sections of 1650 mm each. The base has a 4.0% slope on both sides. A detail callout points to the joint between the shaft and the base, labeled 'TĚSNĚNÍ PRACOVNÍ SPÁRY MEZI ZÁKLADEM A DŘÍKEM PODPĚR DLE VL 4 208.05'.
